Project Title: Jarritos Website

I'd like to build a long, single page website about the Jarritos soft drink popular in Mexico and the United States. There isn't a lot of information but there are a lot of flavors mentioned so that could be fun to highlight through the design. I think icons of the sodas could be buttons to navigate the site.

- **Introduction** – Introduce basic points of jarritos .

- **Term -** go over a bit the meaning of the word and the logo.

- **History -** Go over the story of how Jarritos came to be. Mention NikeXJarritos shoe collab 2023.

- **Flavors -** Go through the 15 flavors of the soda. Could be fun the have a grid highlighting each flavor.

- **Sources** – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
